

BRAND PROFILE

Trofarello, Turin - Italy | Established 2023

● ● ● COMPANY OVERVIEW

Who is Simplex Hydronic Technology?

SIMPLEX HYDRONIC TECHNOLOGY is an Italian company built by a team with more than twenty years of experience in the radiant heating and cooling equipment market.

2023

FOUNDED

14

PEOPLE IN ITALY

75

PEOPLE IN CHINA

An Italian company, active worldwide, dedicated to radiant heating and cooling comfort.

• • • PURPOSE

Our Mission

The mission of **SIMPLEX HYDRONIC TECHNOLOGY** is to be an Italian company leader in radiant heating and cooling components.

SIMPLEX HYDRONIC TECHNOLOGY is the interface between customers and Chinese production plants, supplying a complete package of hydraulic components, also produced under OEM, either **Made in Italy** or **Made in China**.

01

Made in Italy

1 production and assembling site in Turin province.

02

Made in China

3 production sites, one for plastic injection, one for brass components and one for electronic devices.

• • • QUALITY

Quality is our mission

Quality control in our production plants, Italy or China, is the topic of daily operations.

SIMPLEX HYDRONIC TECHNOLOGY faces the radiant heating and cooling market with highly reliable products, developed in Italy and German tested.

“Developed in Italy. German tested.”

••• LEADERSHIP

Meet Our Director

EDUCATION & EXPERIENCE

Graduated in Economic University and Mechanical Institute, with twenty years of experience in the heating and cooling market.

DAILY TOPICS:

1

Logistics & Supply Chain

Control of incoming and outgoing goods, with in-depth experience managing import/export operations.

2

Plastic Injection & Brass Turning

Management and control of mold construction and plastic injection cycles.

3

Strategic Purchasing

Analysis, selection and control of strategic suppliers located **across the world**.

4

Head of Sales

Research, analysis and constant support for every customer, from first meeting to daily management.

••• **PRODUCT RANGE**

Our Main Products

Brass, Stainless Steel and Plastic Manifolds are our most important products.

Flow-meters, Lockshields, Fill/Drain valves, Actuators, Adjustable brackets and Euroconus connectors are the main accessories.

OEM products based on specific requirements can be produced upon request.

STAINLESS STEEL MANIFOLD

PLASTIC MANIFOLD

FILL / DRAIN VALVE

FLOW-METER

● ● ● OUR PEOPLE

We Work With the Best Team

A team of people guarantees **SIMPLEX HYDRONIC TECHNOLOGY** is fast, efficient and active on the market with every customer.

A team of engineers in the Technical and Production departments guarantees complete control of each process.

Quality control and production planning are our daily topics.

Logistics

A team focused on import/export documentation for our customers.

Administration

An active and fast team managing and controlling every accounting process.

Our Main Departments

01

Logistics

Always active in all logistics operations, including import/export.

02

Administration

Always active in all accounting operations, ready to respond to customers.

03

Technical

A technical office always present in the development of every product.

04

Sales

Our commercial department is always ready to fulfill every customer request.

Production Units

Made in Italy

Manifolds, fittings and accessories.

Made in China

Manifolds.

Made in China

Actuators, fitting, pipes and accessories.

Portugal

PEX-A, PERT and multi-layer pipe partner.

A network built for reliability

Four production units across three countries let **SIMPLEX HYDRONIC TECHNOLOGY** combine Italian engineering with efficient, quality-controlled manufacturing, supplying a complete hydraulic component package, including **OEM production**.
